

Money Skills- Money Management Patch

Girls develop a budget, take Cookie or MagNut orders, handle customer's money and gain valuable practical life skills.

Because your Girl Scout takes Cookie and/or MagNut orders and handles customers' money...

- *She'll be less likely to lose her lunch money or field trip fees.*
- *She can handle a checking account, help with the grocery shopping, and even stay on top of her cell phone bill!*

Activities- Complete three of the five activities below

1. Create a budget.
2. Know the names of coins and be able to count change using quarters.
3. Count back change from a \$20 bill for a purchase of 2 items.
4. Come up with a plan to keep track of how many items are sold at your cookie booth/walk-about.
5. Can you accept checks? If so, find out who they should be made out to and what to do with a check when you take one. What does a completed check look like?
6. Plan and budget the cost for an activity or event. After it is over, go over your receipts. Were you over or under your budget?

Please contact the Girl Scout shop at shop@gs-nmtrails.org for patch availability.
